BrowZine

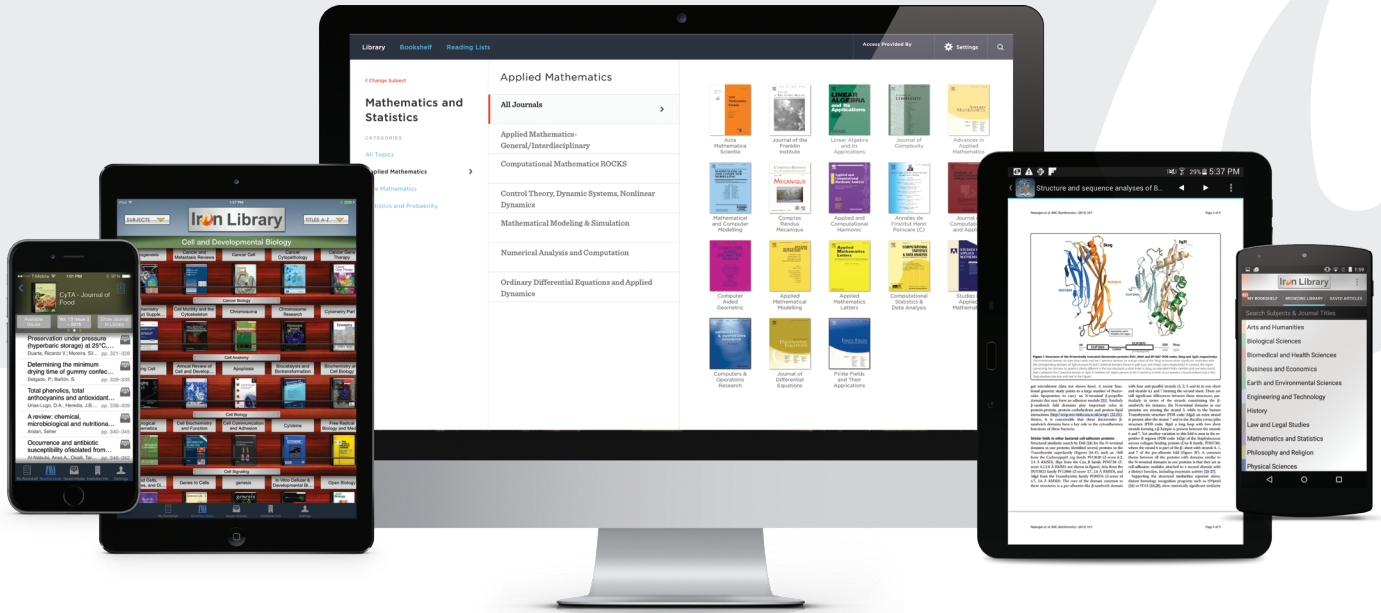

Easily find, read, and stay up to date with the medical journals in your field

Access provided by the Library Network Office

Set up a LibLynx Remote Access account before installing
the BrowZine app if you have not already done so.

This must be done while on the VA network (onsite, VPN, or Citrix) and can be done here.

Step 1

From your **iOS** or **Android** device, **download the BrowZine application** from the Apple App, Google Play or Amazon App stores.
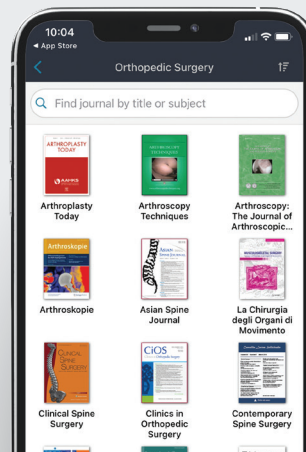

Step 2

**Select your medical center** from the list of institutions

Step 3
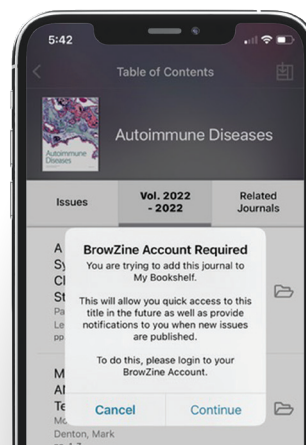

Enter your **LibLynx credentials**

Step 4

Select a **subject area of interest**

Step 5

Browse journals to read those of interest, tap the icon in the upper right to **add the journal to your My Bookshelf**

Step 6

Select **Continue** to create or login to your BrowZine account with VA email and password of choice. **You will be alerted** when new content is published in journals added to **My Bookshelf**.

BrowZine is also available from the web, simply navigate to

https://browzine.com

to get started.

Please contact your library staff with any questions about how to get started with or use **BrowZine**
