

White Paper Supporting a Recommendation for Post-Deployment Illness and Injury Centers within the Veterans Health Administration

RAC-GWVI Meeting
November 2016

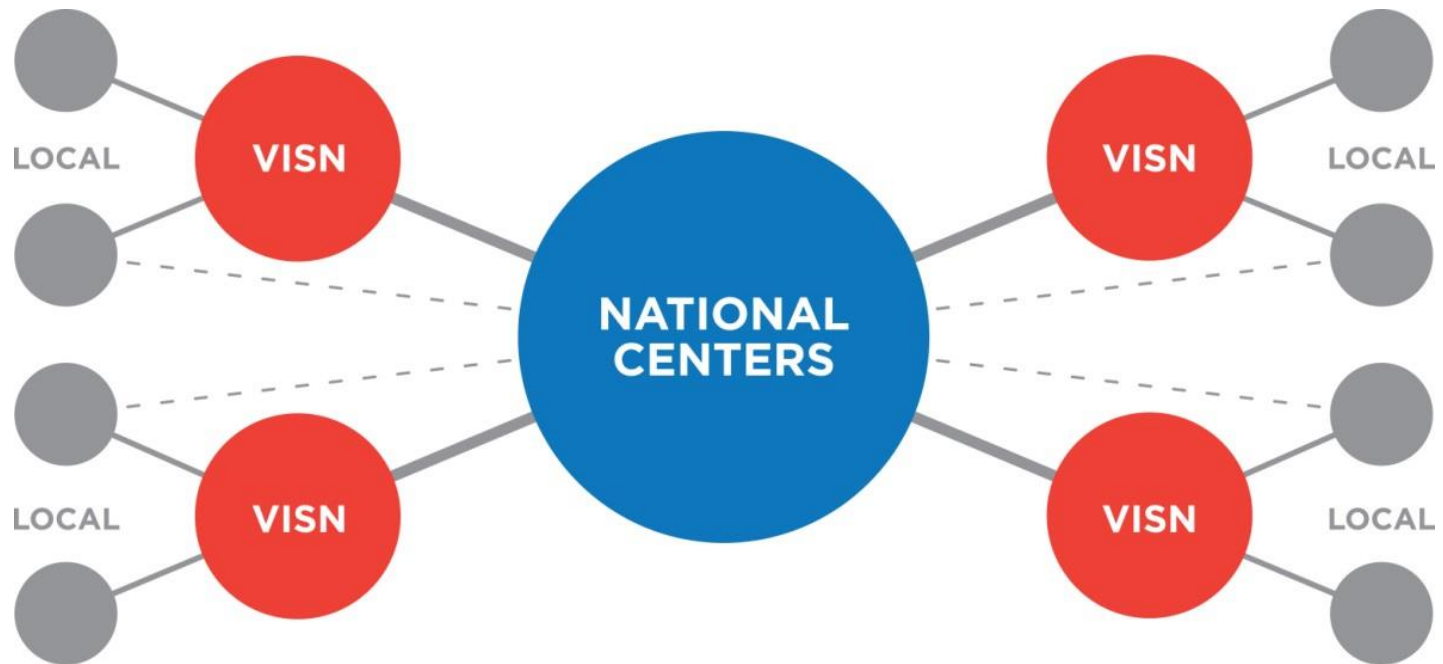

White Paper Overview

I. Purpose: *to develop a coordinated system of centers that uses an integrated and evidence-based approach to support and advance research, education and clinical care for chronic conditions related to post-deployment.*

II. Focus Area: *complex, chronic conditions that service members suffer from during post-deployment (e.g., GWI, other chronic multisymptom illnesses, chronic pain, and chronic disorders resulting from environmental exposures).*

White Paper Overview

III. Structure and Coordination for Post-Deployment Centers

White Paper Overview

IV. Integration of Post-Deployment Research and Clinical Care

V. Data Integration

VI. Key Partnerships
