

## VA STANDARD OF PRACTICE FOR KINESIOTHERAPISTS

### Comment Count Report

The Department of Veterans Affairs (VA) is establishing VA's standard of practice for Kinesiotherapists; this will be a standardized set of services that all VA Kinesiotherapists can perform if their VA medical facility performs such services, and they have the education, training, and skill to perform the services.

On July 29, 2022, VA posted the proposed VA standard of practice for Kinesiotherapists on the Federal Register ([87 FR 45857](#)) for public comment and within VA's intranet for VA employee comment. VA also sent letters to the national registration body for Kinesiotherapists (the Council on Professional Standards for Kinesiotherapy) with the proposed VA standard of practice and an opportunity for them to comment directly to VA on the proposed standard. VA requested that all comments on the Federal Register, VA's intranet site, and from the registration body be provided within 60 days. The comment period closed on September 27, 2022, and VA received 34 comments in total.

VA received 33 comments from VA employees, 0 comments from individuals from the public, and 1 comment from the Council on Professional Standards for Kinesiotherapy.

VA will review all comments received and make appropriate revisions to the VA standard of practice for Kinesiotherapists in light of the comments, to include those that help VA meet its mission and goals through evidence-based practice and alternatives.

VA will post a collective response to all comments in a final report on <https://www.va.gov/standardspractice> once the VA standard of practice for Kinesiotherapists is published in Veterans Health Administration Directive 1900, which will be available at <https://www.va.gov/vhapublications/publications.cfm?pub=1>.
